## Eclipse 784 S3 version

Track your bartenders or shifts separately!

The Eclipse 784 S3 will handle 7 coded pourers. It is equipped with the date and time and can track up to three time periods daily with different price levels. It can be set to handle up to three bartenders using separate Log in/Log off keys or a magnetic fob/ID key option is available to lock the system when no ID key is applied to the fob. The Eclipse S3 also features an "autoprint" option to print a serial report upon login and logoff.

TECHNOLOGY

Now with RoHS components and a 20 VA power supply!
