Eclipse ID S3 version

Track your bartenders or shifts separately!

The Eclipse ID S3 will handle 228 pourers. It is equipped with the date and time and can track up to three time periods daily with different price levels. It can be set to handle up to three bartenders using separate Log in/Log off keys or a magnetic fob/ID key option is available to lock the system when no ID key is applied to the fob. The Eclipse S3 also features an "autoprint" option to print a serial report upon login and logoff.

EASY GO CONFIGURATION

The Eclipse ID system is provided with a start up configuration and complete brand list. You can easily modify the existing configuration, create your own personal configuration OR add and remove brands using the Liquor Manager ID+ 2010 software (Included).

Two pourers available:

- 1: Regular flow for liquor
- 2: Blue wine pourer

TECHNOLOGY

Now with RoHS components and a 20 VA power supply!

LESS ELECTRICITY - MORE PUNCH!

The new 2010 Eclipse series now use a smaller power supply that provides more opening power without over heating even in continuous use. It also provides us with the ability to offer our exclusive pour spout **UNBLOCKING** feature and the new wine by the glass pour spout!
